AGAIN NEW TESTIMONY.

READ.

HANNA, July 30, 1863.

I have been deaf for over twenty five years, and DR. VON EISENBERG operated on both of my ears without the slightest pain—a thing that could not believe could be done. I now hear well, and feel as I never felt for the last twenty years. The dexterity and skill with which the operation was performed evince the highest practical ability. I bear perfectly. It is now over a month since the operation, and I continue to feel as well as ever.

WILLIAM LIDDELL,

Barlow, 12th street, between Second and Third ave.

CATARRH CURED.

New York, August 23, 1863.

I have been suffering for the last three years from a severe Catarrh, with a continual discharge in my head, a tightness across my chest, a weight over my eye, which were weak, watery and very painful. My nostrils were continually obstructed with a piling of fluid. I have had frequent sneezing, hoarseness of my voice, generally attended with splitting, often with a sense of my throat, together with a sneezing and a drooping. Dr. Von Eisenberg has cured me of all these disagreeable sufferings. I now feel a new life.

The treatment of Dr. Von Eisenberg is as skilful as it is successful; it is impossible to overrate the benefit I have received at his hands. I heartily recommend any one suffering like myself to place themselves under Dr. Von Eisenberg's care, with a certainty of being speedily cured.

This with gratitude and pleasure. I cannot forbear again saying that my voice, which was hoarse and thick when I applied to Dr. Von Eisenberg, is now clear and good; indeed, I feel abundantly satisfied.

JAMES LITTLE,

20 Stevens street, New York.

New York, Sept. 8, 1863.

I have been suffering for years past from severe Catarrh, with a great heaviness over my eyes, with a severe depression, great uneasiness and pain in my head, great difficulty in breathing, and a continual accumulation in my nostrils, which gave me restless nights for several years. I have consulted several physicians, who pronounced me to be consumptive. What I suffered on a long time is indescribable. My system was entirely disorganized and greatly debilitated. I not only lost weight, but had a cloud continually before my eyes, and my ears were as affected that I was threatened with a total loss of hearing. I may say I thought I was going to die. Dr. Von Eisenberg has skillfully treated me, so as to restore me to health. His treatment is as follows:—

The name of the man who was sick was Sir James Hope K. C. B., he was mentioned in connection with the West India Committee, and it will be well to allow that if the health of Sir James is sufficiently restored, he will be able to undertake the duties of a command, which is likely to have more responsibility attached to it than any other in the gift of the Duke of Saxe-Coburg, there is no officer in existence who is greater than the captain of Peloponnesus, and commanded by the same captain.

The London Post of the 14th of August says—

The name of the man who was sick was Sir James Hope K. C. B., he was mentioned in connection with the West India Committee, and it will be well to allow that if the health of Sir James is sufficiently restored, he will be able to undertake the duties of a command, which is likely to have more responsibility attached to it than any other in the gift of the Duke of Saxe-Coburg, there is no officer in existence who is greater than the captain of Peloponnesus, and commanded by the same captain.

The Paris Correspondent of the London Telegraph, writing of the 15th instant, says—

All eyes are turned towards Bari, from which place by letter or telegraph we shall learn occasionally during the next few days what has become of the Englishman meditating. But it is very likely that the Emperor himself is more intent on having a little rest than on the future of Poland or Mexico, the anger of St. Petersburg of the conqueror, who is still so much resented, enlightened the thoughts of Bari, who, upon his return, shortly after the Paris session will begin, and then the storm of life will be made by the crew of the Florida, and commanded by the same captain.

The Paris Correspondent of the London Telegraph, writing of the 15th instant, says—

M. DE MONTOLOUX'S ADDRESS TO NAPOLEON.

(Paris Sept. 17) Correspondence of the Ambassador, of France (Sept. 17) correspondence of the Ambassador, of Austria.

Amongst other points the recognition of the Confederate States by France is still on the order of the day.

The Emperor personally desired to take

the step. Notwithstanding the Minister, it particularly M. de Montholon, whose opinion has great weight with the Emperor, are opposed to it. M. de Montholon, who was recalled to France expressly to be consulted on the Mexican question, declares himself decidedly in favor of recognizing the Southern Confederacy.

This diplomatist expressed himself as follows to the Emperor—

If you wish to create a permanent government in Mexico, you must make some arrangement with the Southern States to allow them to live in peace, and run the *Asiatic* and *American* *States*, which, however, the *Northerners* will endeavor to avoid. But if you will recognize the Southern States, you may be compelled to make some arrangement with the *Confederates*—to give up the captured *Kuonado* to the *federal* *States* on favorable conditions. Mexico will rejoice in republican liberty under the flag of the United States. You, then, sir, will have the opportunity to accomplish the mission of civilization in both hemispheres, and give a brilliant example of your disinterestedness; but a new and durable *Anglo-Saxon* you will not have created.

The Emperor, however, did not yet get a formal convention.

The question of a loan.

Nothing can be done without money.

The *Asiatic* *States* will be compelled to yield.

Thus the Emperor, who is not yet reduced to the position of a *private* *Statesman*, will be compelled to yield.

He will be compelled to yield.
